

If you have Pinal, hold it  
If you haven't any get it now before it is out of your reach

### Pinal Development Company

Is one of the best copper properties in the state and its stock is rapidly being taken up by investors who realize that not only will Pinal be a high price stock but the prospects of its being on a dividend paying basis is immediate.  
A shaft has been started on the Port Arthur claim and indications are that sulphides will be reached from 100 to 200 feet. Watch Development in this shaft.  
The boys driving the lower tunnel declare that the way its looking now \$10.00 can't buy their stock.  
It's One Dollar Now—Will Be More

CHICAGO, Oct. 31.—Liberals export business during the week, twenty-four hours did a good deal today to offset uneasiness of wheat traders in regard to possible difficulties between Germany and the United States.
The market closed unsettled at \$1.85, to \$1.89 for December and \$1.84, to \$1.86 for May, ranging as a whole from 1/2 cent off to 1/2 cent advance, compared with yesterday's finish.
Corn closed at 1/2 decline to 1/2 gain, oats unchanged to 1/2 lower, and provisions varying from 2 1/2 down to a rise of 20.
Boats in wheat had the advantage at the outset but were prevailed whether renewed complications for the United States would develop. An increase of the world's available supply total was a bearish element, though not generally regarded as of much less importance. Bullish sentiment revived when announcement was received that yesterday's export business had been more than tripled.
Great Britain had been buying freely on the down turns in prices.
Today reports that 1,000,000 bushels of wheat had been disposed of to Europe today gave a fresh touch of confidence to the bulls in the final dealings. Including the 1,000,000 bushels sold today, the export business of the last five hours finished this evening at 2,750,000 bushels.
Corn rallied owing to the late strength in wheat. Oats stayed chiefly with other cereals. Considerable support was induced by the huge proportions of the visible supply.
Although provisions showed weakness early, with hogs and grain, the finish was in general at a net advance.

Corn rallied owing to the late strength in wheat. Oats swayed chiefly with other cereals. Considerable selling was induced by the huge proportions of the visible supply.

Although provisions showed weakness early, with hogs and grain, the finish was in general at a net advance.

# LIVE STOCK

## Chicago

CHICAGO, Oct. 31.—Hog receipts 35,000; slow, unchanged to 10 cents under yesterday's average: bulk, \$5.40; light, \$5.10; heavy, \$5.30; mixed, \$5.15; heavy, \$5.30; mixed, \$5.15; rough, \$5.30; pigs, \$5.50; mixed, \$5.50.

**BIGGEST BOOM ON AROUND CHLORIDE**  
(By Anthony McCauley, Editor Chloride Herald.)

The rush into this camp is unprecedented in its history. Following the discovery of silver in what he fancies hundreds of people have been arriving to give it examination. To those who have previously thought rushes come only to gold districts chloride is a revelation. Sixty-seven automobiles were counted one day last week on the main street of the town.

Coincident with the rush is the continued scramble for locations. The lot jumper is reviving in what he fancies a secure legal hold on the ground formerly held by old timers. The latter are quietly watching the outcome of the test case which will soon be tried in the superior court.

Properties are changing hands at a rapid rate and the incorporation of a half dozen companies was reported the past week among them being the Victor Copper company, operating the Victor Hill estate of chloride, the Duff and the Silver Hill.

Silver Hill people contemplate a 150-stamp mill, which will be used for the reduction of their ore and act as a custom mill combined.

E. M. Steffy, another mill man who has a large estate in that region, according to James C. Ray, well known geologist, that section is due for much attention this winter. The Victor people are concentrating their efforts in opening a 25-foot ledge upon which, they say, they are ready to spend \$25,000. Gold values of from \$35 to \$40 per ton are also part of the values obtained on these ledges.

# BIGGEST BOOM ON AROUND CHLORIDE

(By Anthony McCauley, Editor Chloride)

The rush into this camp is unprecedented in its history. Following the published stories of the great activity here hundreds of people have been arriving to give it examination. To those who have previously thought rushes come only to gold districts Chloride is a revelation. Sixty-seven automobiles were counted one day last week on the main street of the town.

Coincident with the rush is the continued scramble for locations. The lot

jumper is reveling in what he fancies  
 a secure legal hold on the ground  
 formerly held by old timers. The latter

# COAT OF BROWN BROADCLOTH

A black and white illustration of a woman from the chest up. She is wearing a dark, wide-brimmed hat with a light-colored circular ornament on the front. Her coat is dark with a thick, dark fur collar. The background consists of several vertical lines of varying heights, suggesting a fence or a stylized landscape. The overall style is that of a vintage fashion advertisement.A black and white photograph of a person wearing a dark, heavy coat with large buttons. The person is standing in front of a background of vertical lines, possibly a fence or a wall. The image is cropped, showing only the upper part of the person and their hands near the buttons.

Long graceful lines in coats is the vogue in the fashion world. The coat is one of the new models, emphasizing the lope-line cut of the winter wraps. It is made of brown broad cloth and the collar and cuffs are sealskin. Another feature of the new design is the buttons which are larger than have been worn lately.
